Journal of Radioanalytical and Nuclear Chemistry, Articles, Vol. 156, No. 2 (1992) 451–453

Index to Volume 156

No. 1

Preface 5

B. Salbu, H. E. Bjørnstad, J. E. Brittain (Oslo, Norway)
Fractionation of cesium isotopes and ^{90}Sr in snowmelt run-off and lake waters from a contaminated Norwegian mountain catchment 7

K. Bunzl, W. Kracke (Neuherberg, Germany)
Enzymatic degradation of large vegetation samples for the simultaneous determination of ^{129}I, actinides and strontium 21

N. D. Priest, J. W. Haines, J. A. M. Humphreys, H. Metivier, R. L. Kathren (Harwell and Chilton, Great Britain, Fontenay-aux-Roses, France and Richland, Washington, USA)
The bone volume effect on the dosimetry of plutonium-239 and americium-241 in the skeleton of man and baboon 33

H. S. Dang, D. D. Jaiswal, K. B. S. Murthy, R. C. Sharma, P. P. V. J. Nambiar, C. M. Sunta (Bombay, India)
Relevance of ICRP metabolic model of Th in bio-assay monitoring 55

A. G. Hegde, S. Chandramouli, R. S. Iyer, I. S. Bhat (Thane District, India)
Studies in biological excretion of inhaled plutonium in the case of a few occupational workers in a fuel reprocessing plant 65

J. P. Shukla, S. Kalaiselvan, M. V. R. Prasad (Bombay and Kalpakkam, India)
Estimation of natural thorium in low level effluents from processing plants 75

G. Barci-Funel, J. Dalmasso, G. Ardisson (Nice, France)
Indirect determination of ^{241}Pu activity in soils using low energy photon spectrometers 83

S. Hisamatsu, T. Ohmura, Y. Takizawa, T. Katsumata, Y. Inoue, M. Itoh, K. Ueno, M. Sakanoue (Akita, Chiba, Ishikawa and Hyogo, Japan)
Tritium level in Japanese diet and human tissue 89

S. Z. Khan, Z. R. Turel (Bombay, India)
Determination of Hg in biological samples by substoichiometric neutron activation analysis 103

S. K. Aggarwal, M. K. Saxena, H. C. Jain (Bombay, India)
Determination of plutonium by alpha spectrometry 111

V. M. Matkar, U. Narayanan, I. S. Bhat, K. C. Pillai (Bombay, India)
Geochemical association of plutonium in sediments of the Trombay coastal environment 119

H. A. Das (Petten, The Netherlands)
Release of ^{137}Cs from anoxic lacustrine sediment measurement and formulation 129

C. Gasco, E. Iranzo, L. Romero (Madrid, Spain)
Transuranics transfer in a Spanish marine ecosystem 151

H. E. Bjørnstad, H. N. Lien, Yu-Fu Yu, B. Salbu (Norway)
Determination of ^{90}Sr in environmental and biological materials with combined HDEHP solvent extraction – low liquid scintillation counting technique 169

Elsevier Sequoia S. A., Lausanne
Akadémiai Kiadó, Budapest

Y. Takizawa, T. Abe, M. Yamamoto, R. Yuan (Akita and Ishikawa, Japan and China)
Fallout plutonium concentration in Japanese tissues: A new look at the old samples 175

E. Holm, J. Rioseco, H. Pettersson (Lund, Sweden)
Fallout of transuranium elements following the Chernobyl accident 183

C. K. Kim, S. Morita, R. Seki, Y. Takaku, N. Ikeda, D. J. Assinder (Ibaraki and Tokyo, Japan and Gwynedd, U. K.)
Distribution and behavior of ^{99}Tc, ^{237}Np, ^{239,240}Pu, and ^{241}Am in the coastal and estuarine sediments of the Irish Sea 201

P. K. Mohapatra, V. K. Manchanda (Bombay, India)
Laboratory studies on the adsorption behavior of americium 215

Linda L. Moore, R. L. Williams (Idaho Falls, Idaho, USA)
A rapid method for determining nanogram quantities of uranium in urine using the kinetic phosphorescence analyzer 223

No. 2

J. C. Laul (Richland, Washington, USA)
Natural radionuclides in groundwaters 235

A. E. Nevissi (Seattle, Washington, USA)
Measurement of actinides and long-lived radionuclides in large coral samples 243

S. A. Ibrahim, F. W. Whicker (Fort Collins, Colorado, USA)
Comparative plant uptake and environmental behavior of U-series radionuclides at a uranium mine-mill 253

W. H. Adams (Long Island, New York, USA)
Late medical consequences of exposure to radioactive fallout 269

H. Latrous, J. Oliver (Tunis, Tunisie and Oak Ridge, Tennessee, USA)
Self-diffusion coefficients and structure of the trivalent transplutonium ion curium and gadolinium in aqueous solution 291

A. S. Paschoa, J. D. T. Arruda Neto (Rio de Janeiro and Sao Paulo, Brasil)
Electrofission and photofission as tools to measure actinides in environmental and biological samples 297

K. G. W. Inn, B. M. Coursey, E. H. Eisenhower, M. D. Walker, H. T. Heaton, II, K. C. Duvall (Gaithersburg, Maryland, Rockville, Maryland and Washington, D. C., USA)
National ionizing radiation secondary laboratory system 313

M. S. Andreasco, R. S. Seymour, G. N. Martin (Knoxville and Oak Ridge, Tennessee, USA)
High-resolution gamma-spectrometry for measurement of transuranic radionuclides: A comparison of a low axial length-to-diameter coaxial HPGe detector versus a planar HPGe detector 323

M. M. Rajadhyaksha, Z. R. Turel (Bombay, India)
Multielemental determination in normal, benign, and cancerous tissues of the human brain 341

A. Yamato (Tokyo, Japan)
Concentration levels and behavior of transuranium nuclides in Japanese coastal marine environment 349

P. I. Mitchell, W. R. Schell, A. McGarry, T. F. Ryan, J. A. Sanchez-Cabeza, A. Vidal-Quadras (Dublin, Ireland, Pittsburgh, USA and Barcelona, Spain)
Studies of the vertical distribution of ^{134}Cs, ^{137}Cs, ^{238}Pu, ^{239,240}Pu, ^{241}Pu, ^{241}Am, and ^{210}Pb in ombrogenous mires at mid-latitudes 361

J. L. Lipsztein, D. Grynspan, B. M. Dantas, L. Bertelli, M. E. Wrenn (Rio de Janeiro, Brazil and Salt Lake City, Utah, USA)
Thorium exposure: Problems in bioassay interpretation 389

N. P. Singh, R. C. Jensen, M. E. Wrenn (Salt Lake City, Utah, USA)
Macro distributions of plutonium in the femur of the general population and comparisons to occupational cases and animal studies 401

M. E. Wrenn, H. Ruth, D. Burleigh, N. P. Singh (Salt Lake City, Utah, USA)
Background levels of uranium in human urine 407

R. L. Kathren, J. F. McInroy (Richland, Washington and Los Alamos, New Mexico, USA)
Implications of postmortem human tissue analysis on biokinetic models for actinides 413

R. A. Guilmette, A. F. Eidson (Albuquerque, New Mexico, USA)
Using animal dosimetry models to interpret human bioassay data for actinide exposures 425
